THE H

The exhibit is now the finest collection of fish ever seen here. Language cannot describe the oddities found here. The fish are odd shapes, some like a brush, and yet no pair is alike.

The Aquarium was originally built by Mr. James B. Carlson's company. The plant has cost \$10,000 throughout the week. A large amount is being spent on enlarging and improving the building.

JARIUM

M is located in Waikiki Beach, five minutes' walk from the entrance. The water is clear and the fish are numerous. Of these there are over 1000 species. The most brilliant colors are to be seen in the various species. The aquarium is open daily from 9 a.m. to 5 p.m.

Over 100,000 persons annually. It is a great attraction. The entrance fees are laid on as if to encourage people to see the Aquarium". The land was originally owned by the Honolulu Rapid Transit Company, but has been sold to the city at different times. It is open to the public and is used for the purpose of education and entertainment.
